A devastating hailstorm, several miles wide, affected northern portions of North Little Rock and continued eastward through Sherwood and on into the area between Jacksonville and Galloway. In North Little Rock, hail up to 1 inch in diameter pelted the National Weather Service office at the North Little Rock airport for 6 minutes, from 5:11 to 5:17 PM CDT. The hail became larger as it progressed farther to the east. The Indian Hills and Windsor Valley subdivisions in North Little Rock were particularly hard-hit, as some of the hail increased to golf ball size (1.75 inches). Roofs were ruined and cars were dented.				
In Sherwood, much of the hail was golf ball size, and some of it was even larger. The hailstones poked holes in vinyl siding, ruined roofs, dented cars, and smashed car windshields. City officials indicated that thousands of roofs would have to be replaced. Automobile dealerships along U.S. Highway 67/167 were very hard-hit. One dealer said it was the first time in the 40 year history of the dealership that they were going to have to hold a "hail sale." The largest hail was baseball size (2.75 inches) and was reported in the southern part of Sherwood.				
The hailstorm then continued eastward into Lonoke County.				
For the sake of completeness, all hail reports received by the National Weather Service are listed individually.

<p>The devastating hailstorm moved eastward out of Pulaski County, and continued east across all of Lonoke County. The hail swath about 10 miles wide. The hail ranged in size from the size of nickels (0.88 inch) to the size of baseballs (2.75 inches). Communities affected included South Bend, Parnell, Furlow, Fairview, Brownsville, Lonoke, and Carlisle.</p> <p>The largest hail fell a few miles north and northeast of Lonoke, where much of the hail was golf ball size (1.75 inches) to baseball size (2.75 inches). The hailstones ruined roofs, damaged siding on houses, broke windows in houses, broke car windshields, killed birds perched in trees, and destroyed gardens and crops. The worst damage was found in the vicinity of these roads: Plafcan Rd., Fred Koch Rd., Watson Lane, E. Watson Rd., Ferguson Ln., Wesley Kittler Rd., Kittler Rd., E. Schafer Rd., Raymond Schafer Rd., Brownsville Loop, Arkansas Highway 13, Lawson Rd., Lilly Rd., Oakdale Rd., Northcutt Rd., D.K. Bennett Rd., Bud Young Rd., and Arkansas Highway 31.</p> <p>The University of Arkansas Cooperative Extension Service indicated that between 22 and 27 farmers lost 60% to 100% of their crops. Altogether, about 26,000 acres of crops were lost, including 16,260 acres of soybeans, 8,130 acres of rice, and 1,600 acres of corn. Corn stalks that were 8 feet tall were cut in half and soybeans were beaten to the ground.</p> <p>For the sake of completeness, all hail reports received by the National Weather Service are listed individually.</p>

Trees and power lines were blown down, and the steeple was blown off a church.

While the atmosphere dried out, it heated up on the 30th. Scattered thunderstorms bubbled up quickly across the north and built into the central counties. A devastating hailstorm struck parts of Pulaski and Lonoke counties late in the afternoon.

Hail poked holes in the siding of some townhouses in Sherwood (Pulaski County). Photo courtesy of John Robinson, WCM, WFO Little Rock.
